Expand your brand's reach with a Social Media Campaign

Social media is one of the most effective channels to connect with our audience, market your brand, and expand your reach. By organizing a social media campaign with Meetings Today, you can utilize one or more of our channels (Twitter, Instagram, Facebook, YouTube) to promote and build your brand, while driving targeted traffic and building a robust online community of meetings professionals.

Your message will be seen by only members of the Meetings Today Universe. Either by emails from our database or planners who visited MeetingsToday.com, your message will be seen by the RIGHT social media audience.

- Reach our audience on Facebook and Instagram
- Drive sales activity and generate leads
- Increase registrations
- Promote your brand and build awareness
- Large-scale reach to potential customers where they are on the web
- Measure response and engagement with your current ad creative
- Multiple options for ad creative, including an image ad, a multi-image carousel ad or video ad

Image Ad

An image ad on Facebook or Instagram is a great way to increase awareness of who you are and what you do. An image ad gives you a clean, simple format to use with inspiring imagery and engaging copy.

Carousel Ad

The carousel format allows you to showcase 2-10 images within a single ad, each with its own link. With more creative space, you can highlight different products or tell a story about your brand that develops across each carousel card.

Video Ad

Capture short bursts of attention with video ads. Your brand message or product comes to life with video and garners extra attention.

Please note: There will still be other standard banner advertisers on the page that are not targeted.

AUDIENCE Retargeting (Google Ad Network) Reach our audience beyond our website.

Retargeting is a powerful way to stay engaged with the MeetingsToday audience, regardless of where they are on the web. We can display your banner ad to people who have previously visited meetingstoday.com as they browse the Google Ad Network. When people leave our website, Audience Retargeting helps you reconnect with them by showing relevant ads as they browse the web.

Reasons to use retargeting:

- Drive sales activity and generate leads
- Increase registrations
- Promote your brand and build awareness
- Large scale reach to potential customers where they are on the web

- 1. Meeting planner visits MeetingsToday.com**
- 2. Planner is tracked**
- 3. Planner leaves MeetingsToday.com**
- 4. Your ad follows them on the web**

Reach our audience beyond our website

Audience matching works very similarly to ad remarketing on Google. In addition to using a cookie to track our visitors when they log onto Facebook and Instagram, we have also uploaded all of our subscriber emails to Facebook/Instagram and can reach 52,000* of our highly qualified audience when they are logged onto the sites. Facebook/Instagram Matching is another way to stay engaged with the Meetings Today audience.

LEADS BY WEBINARS

Video Webinar Lead Generation

Meetings Today has been the leader in producing high quality educational webinars for more than 15 years. These webinars are also a great opportunity to generate meeting planner data that returns high quality leads. There are 4 options.

Education Webinars

Every month Meetings Today produces an education webinar on the hottest topics in the industry. These webinars generate an average of 1,200 registrants.

Custom Content Webinars

These webinars are exclusive to one sponsor. The sponsor will help direct the content for the webinar that relates to their destination or property.

Custom Destination Webinars

The purpose of this program is to generate interest in a destination. This will include interviews, videos, and Q and A.

Custom FAM Webinars

Let our experienced editorial team be part of your FAM trip. All the video, testimonials, and experiences will all be shared in an educational video webinar.

LEADS BY PHONE

The best way to generate leads is to get a targeted planner on the phone and find out their need dates and preferences. Meetings Today partners with SDR to give destinations and properties a home run when it comes to lead gen. The program consist of 4 parts.

Building a Script

We will need to Identify your main contact for this program—usually your DOS. We will then need one hour from your best salesperson(s) for a phone conference call. In this hour, we would like to hear how they position you to meeting planners. Questions such as what makes you unique and what are your top-selling points, will be discussed.

We then take this information and develop a 'script'. Once this is complete (about a week) we will send the phone script to you for approval or additional recommendations.

Building your target database

Meetings Today has a large qualified audience, and we collect fresh, up-to-date data on each subscriber. You will be able to choose by Type of planner, location of planner, and other criteria.

Cold Calling Begins

The SDR (Strategic Database Research) team will begin making calls and start building leads based on your approved script and the approved targeted list of planners. Weekly updates meetings will help keep you posted of the success of the program.

The Results (LEADS)

During the program you will be receiving leads in two forms. Those planners who have a need date and are interested in talking to someone from your organization about booking a meeting. The other leads are interested planners who would like more information, but do not have a meeting for them at that exact moment.

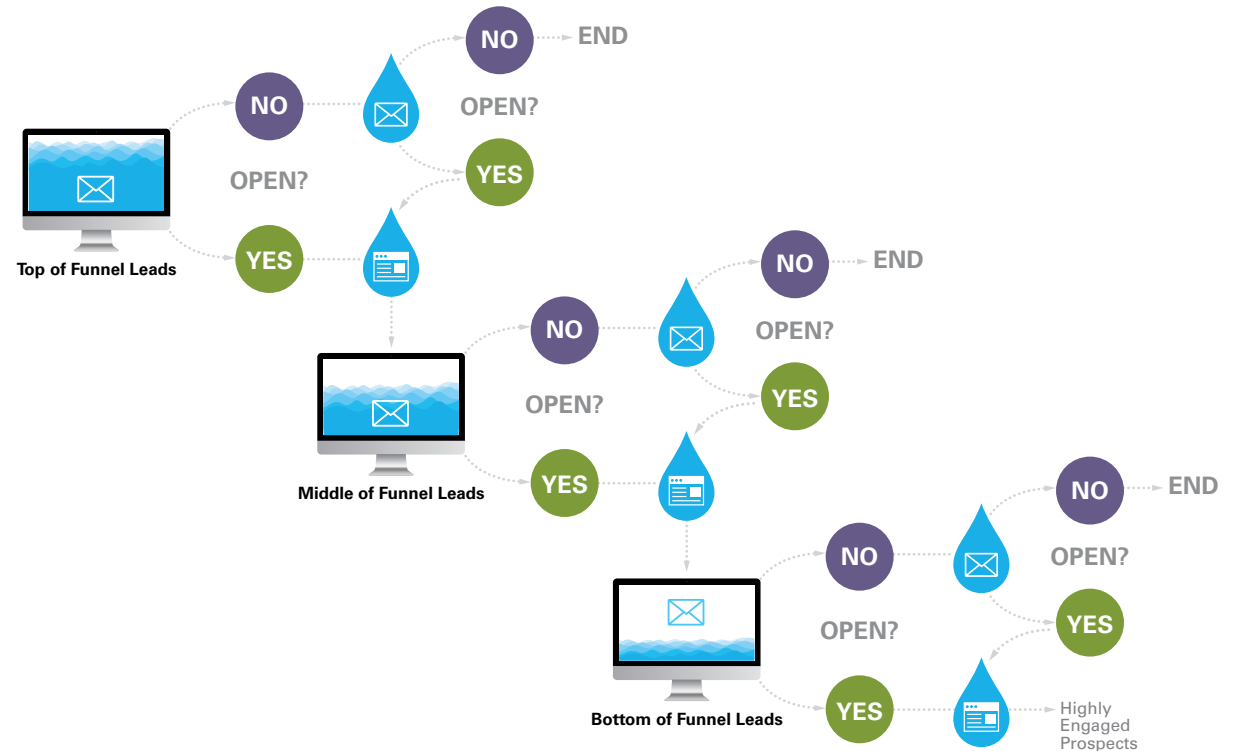

Why +?

The Plus is the philosophy that you are not on your own. We have a dedicated team that will help guide you to have successful results.
